MONDAY EVENING, APRIL 16, 1906 The Decciticiness of Fur. It detracts somewhat from one's feel-ing of pride in a handsome fur garment to know that after the furrier, chemist and dyer have got through with the rabbit skin it may be a "sealskin," a "sable," an "otter," a "Siberian squirrel," a "mink," a "marten," a "beaver" or any other fashionable fur. The transformation takes place in the shops which sell felt to hatmakers, carpet wenvers and felt manufacturers, and Paris and London are the principal centers for this industry. In those rities millions of rabbit skins are dressed and treated, and bogus furs are sent out to robe men and when of all parts of the world. The same are purchased soon after they have been stripped from bunny's back and are stiff and hard when they are unpacked in the sorting room. Experts examine each skin, and those which come up to the established standard are sent to the furriers, but the torn, undersized

Lady Jane Grey was the most learn ed child of which history has any rec ord. Before she was nine years old she wrote a beautiful hand and was able to play on many different instruments. She could speak several languages, both ancient and modern, beides being well grounded in philoso phy. When other children were play ing she would amuse herself by reading writings of the philosopher Plato in the original Greek. Perhaps it was be cause she had led a very lonely life when she was a child, as her mother and father were often away at court, leaving her to the care of her governess and her schoolmasters at the gloomy family place called Bradgate, The big square house was built on the edge of a great forest surrounded by acres of uninhabited land. There were very few books and not any newspapers at the castle, and Lady Jane Grey had no playmates, as her governess would not allow her to play with the servants' children, and there were no others suitable for her companions within miles.

The Origin of Windfall. The origin of the expression "windfall." which is used when one wishes to refer to a streak of good luck, dates back to the time of William the Conqueror. At that time it was a criminal offense to cut timber in the British forests without royal consent. All that ould be gathered for fuel or other ourposes was such limbs as the wind should happen to break and cast to the ground. On this account the peasants hailed a great windstorm as a blessing, because it was apt to cast enough "windfalls" for winter firewood. From this old time forestry custom comes the modern application of the expression. At one time it was decreed that only such limbs and whole trees as should fall during the three summer months could be used as firewood, but the unjustness of the act was so plainly apparent that no attempt was ever made to enforce it.

Muzzled Women of Muscat.

Women of the better class in Muscat all wear muzzles, which barely allow them to open the mouth or see with the eye or sneeze. If there happens to be a Cleopatra in Muscat she will nev er fascinate any Antony by the beauty of her well shaped nose, for it is kept in a specially made, ugly case, in which it is impossible to tell its shape. But with all its faults this is a far better system than that of cutting off the nose as men in the Kangra district in India spouses have proved too fascinating.are wont to do when any of their

Ventriloquism in the Bible Ventriloquism, which is described as "speaking from the belly," has its first historic mention, as far as we aware, in Isaiah xxix, 4, "And thou shalt be brought down and shall speak out of the ground, and thy speech shall be low out of the dust, and thy voice shall be as one that hath a familiar spirit, out of the ground, and thy speech shall whisper out of the dust." -Brooklyn Engle.
